

How to Set Up Your Stevens Account with Okta

Modified on: Tue, Sep 19 2023 4:01 PM

Stevens has partnered with Okta, a world leader in identity and access management (IAM), to provide a seamless and secure login experience to Stevens resources and services.

Benefits of using Okta Single Sign-On (SSO) include:

- A secure set of credentials (username and password) which allow access to multiple applications, saving you valuable time.
- Security features and functionality such as multi-factor authentication and secure mobile device verification.

Before you Start

You will need a mobile phone to download the Okta Verify App and you will need another device (computer/tablet) which will display a QR code.

Click to sign in and play video

Steps to enroll in Okta

Enrolling your device in Okta only takes a few steps.

Step 1: All new students, faculty and staff will receive an email from donotreply@stevens.edu with the subject "New Stevens Account Setup - Your Action is Required". After reviewing the email, select the **Activate Stevens Account** button.

Step 2: You will be prompted to log in with your Stevens username and the one-time password provided in the email you received, then select **Sign In**.

Step 3: You will be prompted to set up multifactor authentication with Okta, select **Setup** to begin the process.

Note: you will need your mobile phone to complete the remaining steps

Set up multifactor authentication

Your company requires multifactor authentication to add an additional layer of security when signing in to your Okta account

Okta Verify

Use a push notification sent to the mobile app.

Setup

Step 4: Select your device type and select **Next**.

Setup Okta Verify

Select your device type

☐ iPhone

☒ Android

Download Okta Verify from the [Google Play Store](#) onto your mobile device.

[Back to factor list](#)

Step 5: On your mobile device, download the Okta Verify app from the App store (iPhone) or the Play Store (Android).

Step 6: On your computer/tablet select **Next** if you have not already done so. You will be presented with a QR code.

Step 7: Open your Okta Verify app and go through the initial welcome screen, then select **Add Account**.

Step 8: You will then have to choose your account type, select **Organization**.

Step 9: You'll then need to select the **Scan a QR code** option.

Step 10: If prompted, grant access for the Okta Verify app to use the camera by clicking **OK**.

Step 11: To ensure you receive notifications from the Okta Verify app select **Allow**.

Step 12: Once done, you should see something similar to the below message.

Step 13: Now your Okta Verify app should display your Stevens account like the screen shot below.

Step 14: On your computer you will be prompted to reset your Okta password, enter the one time password provided to you as the Old Password. Enter and re-enter your preferred password following the password requirements and select **Change Password**.

Your Okta password has expired

Password requirements:

- At least 10 characters
- A lowercase letter
- An uppercase letter
- A number
- No parts of your username
- Does not include your first name
- Does not include your last name
- Your password cannot be any of your last 4 passwords

 Choose a forgot password question

What is the food you least liked as a child? ▼

Answer

 Click a picture to choose a security image

Your security image gives you additional assurance that you are logging into Okta, and not a fraudulent website.

Create My Account

Step 16: You have now successfully set up your Okta account and will be taken to the myStevens homepage (Okta dashboard).

Please note that the Okta Verify App can only be linked to one device, i.e. if you have two mobile phones you can only link one of them to your Stevens Okta account.

If you are unable to use the Okta Verify App for multifactor authentication, the following options are available:

- Google Authenticator
- Voice/SMS
- YubiKey Token

Contact support@stevens.edu to get set up with any of these alternative methods.
