

Request Course Section Prerequisite Override in Workday

Modified on: Wed, Jan 3 2024 5:06 PM

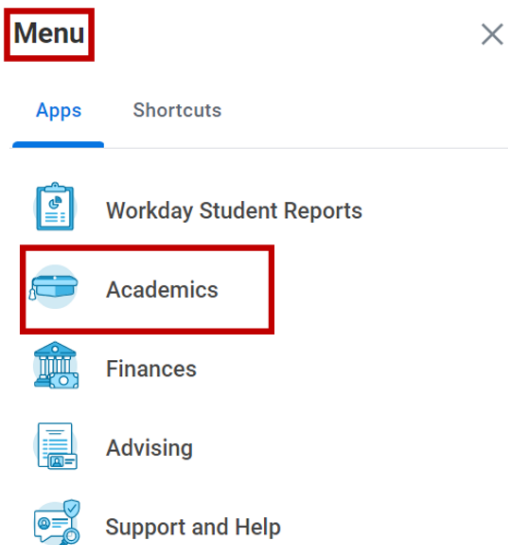

This article walks a student through requesting a Course Section Prerequisite Override in Workday.

Note: Submitting and having this request approved in Workday **does not** automatically enroll a student into the requested course section - an approved request only provides a student with permission to enroll in an approved course section. To enroll in a course section after a successfully approved request, please refer to the following article: *Register from a Course Section in Workday* (<https://support.stevens.edu/support/solutions/articles/19000082229>)

To view your currently enrolled course sections, please refer to the *View My Courses* (<https://support.stevens.edu/support/solutions/articles/19000115579>) article.

Quick Search: Request Course Section Prerequisite Override

Step 1: From your Workday homepage, select Menu on the top left corner and choose the **Academics** worklet in Apps tab

Step 2: Select **Request Course Section Prerequisite Override** located in the **Planning & Registration** section.

***Note:** Select More to expand Planning & Registration section.*

Planning & Registration

Find Course Sections

View My Saved Schedules

Request Course Section Prerequisite Override

View My Courses

Step 3a: Select **Start Date** within – Choose Period and then **Semester**

Select **Course** – Type in **Course Subject** and **Course Number**

Select **Course Section** – **Dropdown** will present application **Course Sections**

Note: Select the fields for the course you want to take without having completed the prerequisite(s). If a field does not produce drop down options, enter a course or course section ID. If a field still returns “No Items” after submitting your entry, there is either no prerequisite(s) or the course and course section is unavailable in the selected academic period.

The screenshot shows a form with three input fields, each with a red star icon to its left:

- Start Date within *
- Course *
- Course Section *

Each field has a dropdown menu icon on its right side. A red line connects the dropdown menu of the 'Start Date within' field to a callout box. The callout box contains a search bar and a list of options with right-pointing chevrons:

- Search
- Future Periods >
- Current Periods >
- Past Periods >
- Non-Year >

Step 3b: Select the **Active Academic Record** where the override will be applied. This only applies to students with multiple academic records on their Workday Student account.

Step 7: Fill out required fields and provide any details necessary

Complete Questionnaire

'Eligibility Override Questionnaire - v3' for Eligibility Override: CS 560 - Statistical Machine Learning requested by Edward Hannah - Computer Engineering Program/Graduate (M.S.) - 08/30/2021 - Active

Eligibility Override Questionnaire - v3

What course would you like to register in? (Required)

☐ Graduate Practicum

☐ D999

☐ PRV

☐ Research Enrollment

☐ Special Problems

☐ Special Topics

☐ Thesis Enrollment

☐ Thesis Prep

☐ Graduate Coop

☐ None of the above

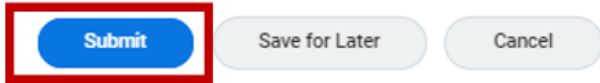

Is this course an undergraduate or graduate level course? (Required)

☐ Undergraduate Level Course (499 and below)

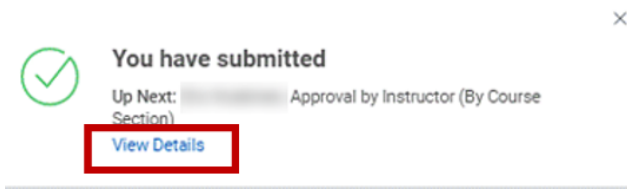

☐ Graduate Level Course (500 and above)

Please provide reason/details for this request:

Step 8: Select **Submit**

Step 9: Select **View Details**

Step 10: Select the down arrow to expand **Details** and **Process**. Select **Done**.
